¹See order form for extra charge.

Illustration of frame colours and cushion colours might differ from the original.

Nele Activity Chair Model 2020

Nele Activity Chair

Model 2020

Nele with outdoor frame

The Nele activity chair is also available with outdoor frame. 12" pneumatic driving wheels and 6" solid rubber castor wheels make it the perfect choice for outdoor activities.

Unique seat depth adjustment

The seat depth of Nele and Nele Classic is adjustable without requiring any tools. Use the integrated lever to adapt the seat depth steplessly to the toddler, child or teenager.

Height adjustment

You may adapt the seat height of the Nele activity chair via gas spring, hydraulically or electrically (see photo) to any table, even the smallest ones. The minimum seat height amounts to 27.5 cm.

Mini version for toddlers

Nele is an integrative activity chair already suitable for toddlers who are 0.65 m tall. Children with a lower leg length of at least 10 cm experience the world around them for the first time in a sitting position.
