Please enter the relevant patient measurements in the table! The measurements for the centre of the pelvis (c) and the shoulder height (d) are absolutely essential!

## Patient's muscle tone

**Stereotypic movements**  
(e.g. permanent body rocking)\*

\*Please check whether any customisations, such as reinforcements of the base frame, are required due to stereotypical behaviour! Requirements can be specified under "Notes" on the last page!

Figure does not comply with base model Size tolerances  $\pm 3\%$
