Please indicate the required specifications in the table. The pelvic middle (c) and the shoulder height (d) are essential.

Figure does not comply with base model | Size tolerances $\pm 3\%$

In case of missing specifications, we apply standard measures!
When measurements deviate from the sizes specified for this stander (compare to table below), we customise the stander at your expense.

Patient's muscle tone

Stereotypic movements
(e.g. permanent body rocking)*

*Please check whether any adaptations, such as reinforcements on the base frame, are required due to stereotypical behaviour! Requirements can be specified under "Notes" on the last page.
