Supports

Lateral supports

A technical line drawing of a lateral support bracket. It consists of a curved arm that connects to a vertical plate. The vertical plate has a rectangular cutout. Dimension 'a' is indicated by a vertical double-headed arrow on the left side of the plate, representing its height. Dimension 'b' is indicated by a horizontal double-headed arrow at the bottom of the plate, representing its width.

184,- €

Thigh guides, width-adjustable

A 3D perspective diagram of a rectangular thigh guide with rounded ends. A semi-circular pad is attached to the front edge. Two orange dimension lines are shown: 'a' indicates the height of the guide from the base to the top surface, and 'b' indicates the width of the guide at the top edge.
